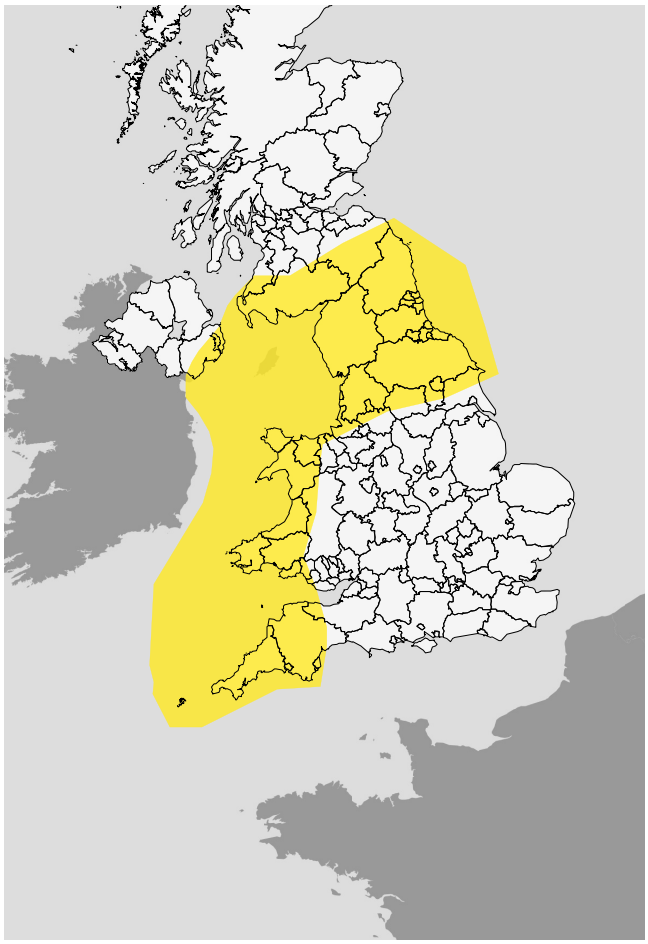
Yellow warning
Wind

Between
18:00 Mon 17 Sep 2018 and
08:00 Tue 18 Sep 2018



Storm Helene will bring a spell of strong winds to western parts of the UK in particular late Monday and early Tuesday.

What to expect

- Some delays to road, rail, air and ferry transport expected.
- Some bus and train services affected, with some journeys taking longer.
- Delays for high-sided vehicles on exposed routes and bridges.
- Some short term loss of power and other services.
- Coastal routes, sea fronts and coastal communities affected by spray and/or large waves.
- Some damage to trees is possible, for example large branches or trees falling in a few places.

Further details

Storm Helene is expected to move northeastwards across the British Isles later Monday and early Tuesday before clearing into the northern North Sea by early Tuesday morning. A spell of strong winds is expected, initially mainly in the far southwest of England and across western Wales. The strongest winds then transfer northwards to be over northern England and, perhaps, the far south of Scotland, during the early hours of Tuesday. Winds are likely to gust into the 40s or low 50s mph quite widely across the warning area. Meanwhile, in some Irish Sea coastal areas, most likely in Wales and northwest England, gusts to 55-65 mph are likely with possible isolated gusts in excess of 70 mph in the most exposed places. High gusts in the 50s or low 60s mph area also possible over high ground in northern England during the early hours of Tuesday.

Reason for update

This warning has been updated to extend it into northern England and the far southeast of Scotland and bring its time of cessation forward.

High likelihood of low impacts
